

Moixa Performance Analyst

About the company:

Moixa is a high growth venture and energy industry innovator which has established itself as the UK's leading residential smart battery storage company. Moixa invents, manufactures and distributes smart energy technology including the Moixa Smart Battery range and Moixa GridShare - the battery asset management software platform that enables consumers, social landlords and utilities to use energy in an intelligent and useful way.

The Moixa Smart Battery has already been installed in a thousand sites throughout the UK in private customer, social housing and small business environments. Moixa systems have been involved in numerous projects for Government, British Gas, Scottish Power, Good Energy and many others.

About the role:

Moixa are looking for a driven and pragmatic team member to work alongside asset management, customer experience and operations teams to deliver key analysis to drive improved company performance. Working with the asset management team, you will be taking live data from our assets in the field to assess their performance and to deliver insight into improving their capabilities. You will also be interreacting with external partners on collaborative asset management projects. With the customer experience and operations teams, you will be developing analysis for weekly and monthly reports, communicating key information from asset management analysis and helping to make daily operations more efficient.

Required skills and experience:

- An analytical mindset – The ability to critically analyse data to develop insights and deliver recommended actions for the respective teams.
- Experience working with Microsoft Excel or other spreadsheet software – coding is not essential but will help.
- Experience with other Microsoft Office software (Word, PowerPoint, Outlook)
- A passion for energy and renewables.
- Well-developed and confident communication and presentation skills.
- A strong work ethic and ability to effectively time-manage, working to deadlines.
