

Project Manager

The Company:

Moixa is a high growth venture and energy industry innovator which has established itself as the UK's leading residential smart battery storage company.

Moixa invents, manufactures and distributes smart energy technology including the Moixa Smart Battery range and Moixa GridShare - the battery asset management software platform that enables end customers to maximise the usage of renewable energy and unlock mass adoption of EV technology.

Moixa was recently selected from 13,900 companies as a Global Cleantech 100 company and has raised over £16m in funding in the last two years including investment from leading companies in Japan.

The Moixa team is growing fast and we are looking for an experience project manager to work alongside the Operations Director and the rest of our passionate team in London and Manchester to work on series of project and products delivered by Moixa. Projects at Moixa range from continuous improvement tasks with internal stakeholders to mission critical client projects with large multinationals. Project value could be from £50k to £7m.

We are looking for candidates to join our small team as a permanent member of staff and who are motivated to own projects end to end, even over multi-year timescales. Working within a close-knit team with an engineering focus you will help deliver successful projects within timescales and budget. There will be a strong focus on the ability to write key documentation and coordinate with the software, operations, hardware and business development teams to ensure that projects are a success.

The position is London based.

You should be:

- Good communicator.
- Strong understanding of product management, service design, and client delivery.
- Happy working in a small, fast moving team.
- Motivated, enthusiastic and excellent collaborator.
- Self-starter, managing own workload and deadlines.
- Able to work in our central London office.
- Able to travel within the UK and internationally.

Responsibilities:

- Support Operations Director and Project Management team on major client projects.
- Lead projects to completion including managing stakeholders and contractors.
- Participate in project development strategy, implementation and execution phases.
- Update and author risk register and project plans.
- Writing specification and compliance documentation; tender writing and submission;
- Provide financial and progress reports to clients and senior managers.
- Develop software engineering insights with the team.
- Perform market analysis.
